Bruker Life Sciences Mass Spectrometry

Join Bruker Nordic on our **ASMS 2024** update seminars in a location near you.

- [timsTOF Ultra 2](#) with new capabilities for detection of sample concentrations ranging from 25 pg to 800 ng enabled by the brand new CaptiveSpray Ionization Source (CSI Ultra 2) and AI based (software) solutions for wide dynamic range in difficult samples!
- New high performing, high resolution, and user friendly **benchtop neoflex™ MALDI system** for biologics characterization or translational research based on image profiling.
- You will also hear about Bruker's new [OmniScape™](#) software for de novo Top Down Sequencing and [GlycoScape™](#) software's as well as new capabilities for our [Bruker ProteoScape™](#), [MetaboScape®](#), [SCiLS™Lab](#) and [Biognosys Spectronaut® 19](#) software solutions.

A lot to be excited about – we are looking forward to meeting you here!

Agenda

**Bruker MS Seminar, Multiomics Innovations from ASMS and Beyond
University of Helsinki, Viikinkaari 1, 00014, Helsinki, Finland**

10:00 - 10:10	Introduction Mads Lundgren Petersen & Willy Bjørklund, Sales Specialists, Bruker Daltonics, North Europe
10:10 - 10:40	Quantitative mass spectrometry-based proteomics in unraveling the molecular basis of human diseases Markku Varjosalo Ph.D., Research Director, Helsinki university
10:40 - 11:00	Instrument news from ASMS Mads Lundgren Petersen & Willy Bjørklund, Sales Specialists, Bruker Daltonics, North Europe
11:00 - 11:20	Coffee Break
11:20 - 12:00	Software and Application - Metabolomics/Lipidomics and MALDI Imaging Cristian de Gobba, Field Application Specialist Small Molecule Omics/PBP, Bruker Daltonics, Nordics
12:00 - 12:40	Lunch
12:40 - 13:30	Software and Application - Proteomics (incl. EVOSEP), Glycomics and MS Characterization Lars Kristensen & Renata Blatnik, Field Application Specialists Proteomics, Bruker Daltonics, Nordics
13:30 - 14:00	Lab Tour

We would be pleased to welcome you! Please register [here](#)
