## Bruker Life Sciences Mass Spectrometry

Join Bruker Nordic on our **ASMS 2024** update seminars in a location near you.

- [timsTOF Ultra 2](#) with new capabilities for detection of sample concentrations ranging from 25 pg to 800 ng enabled by the brand new CaptiveSpray Ionization Source (CSI Ultra 2) and AI based (software) solutions for wide dynamic range in difficult samples!
- New high performing, high resolution, and user friendly **benchtop neoflex™ MALDI system** for biologics characterization or translational research based on image profiling.
- You will also hear about Bruker's new [OmniScape™](#) software for de novo Top Down Sequencing and [GlycoScape™](#) software's as well as new capabilities for our [Bruker ProteoScape™](#), [MetaboScape®](#), [SCiLS™ Lab](#) and [Biognosys Spectronaut® 19](#) software solutions.

A lot to be excited about – we are looking forward to meeting you here!
